ABOUT US

OTM Civil Construction specialises in the construction, maintenance and upgrading of civil infrastructure, including sealed and unsealed road construction, substation construction, civil structural works, installation of storm water infrastructure, earthworks and general civil construction works.

Over the past eight years we have become recognised as specialists in civil construction and maintenance.

During all project stages, OTM works in close partnership with some of Australia's most reputable Tier 1 contractors and end-clients.

MANAGEMENT

Shane Maunder / Executive Director

Shane has 33 years' experience in the construction and mining industries in South Australia and interstate and is a founding partner of OTM Civil Construction.

Scott Stedall / Executive Director (PMP, MAIPM, MAICD)

Scott has over 20 years' project management experience in the civil and electrical construction industry across a range of projects throughout Australia and abroad. He is a founding partner of OTM Civil Construction.

David Hagan / Chief Operations Officer

David oversees the company's operational program; ensuring systems, structures, policies and procedures are correctly used across all areas of operations.

Dale Callary / Chief Financial Officer

Dale manages and oversees the company's finances, accounts and payroll functions. He maintains financial procedures and completes cost analyses to implement the organisation's financial strategies.

Boyd Elliott / Chief Systems Officer

Boyd develops, maintains and manages business systems and processes to effect efficiency, continuity and compliancy. He manages and coordinates all QHSE, IT and training-related functions of the company.

SYSTEMS

OTM Civil Construction has a comprehensive integrated QHSE (Quality, Health, Safety and Environmental) management system, ensuring all work procedures are compliant with state and national legislation and standards.

Importantly, our QHSE system ensures delivery of a high quality of work to the client; creates a safe and healthy work place for all personnel; and minimises impact on the environment.

Our Work Health and Safety commitment goes beyond mere legislative compliance, as we aim to make every work day a safe day.

OTM has management systems certification in:

ISO 9001:2015 (Quality),
ISO 45001:2018 (Safety) and
ISO 14001:2015 (Environmental).

OTM is also a Department of Planning,
Transport and Infrastructure (DPTI)
Pre-Qualified Contractor.

VALUE ADDED SERVICE

QUALITY ASSURANCE

We can confidently assure clients that their project will be completed to a high standard due to our highly competent final-trim machine operators and through the use of strong project and site management methods and processes.

HIGH SAFETY STANDARDS

Our WHS systems and procedures ensure that all work, in particular when undertaken in remote and challenging locations, is conducted in a safe manner, through rigorous risk assessment and effective control.

PROJECT MANAGEMENT

We have strong internal capability in project management, demonstrated by our ability to successfully complete projects on time and on budget.

ENGINEERING CAPABILITY

Our close working relationship with local, state and interstate engineering consultants allows us to provide tailored design and engineering solutions when needed.

ENVIRONMENTAL MANAGEMENT

Our environmental management practices reduce impact on the environment and ensure sustainable use of resources.

PROJECTS

RECENT PROJECT

Mount Gunson South Substation Extension

Client: Consolidated Power Projects
Australia Pty Ltd

Location: Oakden Hills, South Australia

Scope of Works Summary

- Environmentally-managed vegetation clearing and removal (37,000sq.m)
- Temporary compound and laydown area construction
- Temporary and permanent site access roads
- Substation bench earthworks
 - 24,000 sqm bench including 14,000cu.m of engineered fill
- Drainage, including:
 - reinforced concrete box culverts,
 - reinforced concrete pipes,
 - grated inlet pits, and
 - rock lined swale drains
- Internal substation access roads, including asphalt surfacing (4,000sq.m)
- Implementation of customised temporary and permanent environmental controls

KEY PREVIOUS PROJECTS

McConnell Dowell: Bridge and culvert replacement, under the Regional Bridges Project for DPTI (SA).

Consolidated Power Projects: Construction of access tracks, benches and drainage for Hornsdale Battery Energy Storage System (SA).

Senvion: Coober Pedy Wind Farm, construction of access tracks, hardstands, drainage and foundations (SA).

Consolidated Power Projects: Construction of the Mount Gunson and Corraberra Hill Substation benches (SA).

St Hilliers: Upgrade access roads, drainage and associated infrastructure, Murray Bridge (SA) and Puckapunyal (VIC).

Consolidated Power Projects: Construction of access tracks, hardstands, drainage and foundations for Waterloo Wind Farm Stage II (SA), Yawong Wind Farm (VIC), Timboon Wind Farm (VIC), Maroona Wind Farm (VIC).

Consolidated Power Projects: Upgrade of Morgan Whyalla Pump Stations 1 to 4 (SA).

District Council of Mount Remarkable: Booleroo to Pekina Road reconstruction and sealing 6km (SA).

Siemens: Snowtown Wind Farm II construction of overhead line access tracks and crane pads (SA).

Energy Australia: Waterloo Wind Farm I, drainage remediation work (SA).
